## Personal Profile

I am a 21-year-old graduate who has recently completed a challenging degree, in which I successfully achieved a second class honours award.

I am a hard-working, diligent person, and would now like to use the skills that I have gained throughout my education, together with learning new ones, in a business environment.

I would be an asset to a business, with good time management skills and the ability to adapt to different situations, I thrive off a challenge.

## Education
